## **SEVEN ATTORNEYS LEAVE MIDSIZE CHICAGO FIRM TO FORM ANOTHER**

**Chicago, IL** - Seven attorneys (4 partners and 3 associates) recently departed Levenfeld Pearlstein, a mid-sized full service Chicago law firm, to join in the formation of Ginsberg Jacobs LLC.

Members Steven F. ("Sonny") Ginsberg and Darryl P. Jacobs have announced the formation of Ginsberg Jacobs LLC, an innovative partnership that brings experienced attorneys specializing in Real Estate, Corporate, Federal Tax and Tax Credits, and litigation related to those practice areas.

The attorneys at Ginsberg Jacobs have taken a new approach to the incumbent law firm model, and are working with other collaborative professionals to assist large and small institutions, entrepreneurs and business executives navigate legal issues on every level.

"This is our chance to build a new kind of law firm," Ginsberg says. "Our experience at larger firms has told us that the traditional firm structure, with its excessive overhead expense and raw attorneys, will not work for clients in 2009 and beyond. We are taking a different management approach; we will make the decisions on cost that our clients would make if they were in our shoes."

Ginsberg Jacobs LLC offers an alternative to large and mid-size law firms, which require expensive infrastructures to support their layered, multi-department practices -- causing inefficiencies in legal costs and professional services.

“Every once in awhile, an opportunity comes along to do something different,” says Jacobs. “We look forward to working with our clients in a new environment.”

Ginsberg Jacobs LLC opened its doors on June 15, 2009. Two other Levenfeld partners have joined Ginsberg Jacobs, LLC: Michele Krause from Levenfeld’s Real Estate Practice Group, and Matt Zakaras from the Corporate Practice Group. Other attorneys include: Ana L. Acena, Mark A. Biesiada, Frank J. Boucek, Karen Halm-Lutterodt and, an Of Counsel, Ari J. Rosenthal. The office is located at 300 S. Wacker Drive, Suite 2450, Chicago, IL. More information can be found at <http://www.ginsbergjacobs.com>.
